## DETAILED ACTION

### *Status of Claims*

Claims 1-6, 8-11, 20-23 and 28-33 are pending in the application.

Receipt is acknowledged of Applicant's amendment / response filed on September 13, 2004 and that has been entered.

Claims 1 and 20 have been amended. Claims 7, 12-19 and 24-27 have been canceled.

The objection of claims 1-6, 8-11, 28 and 29 has been obviated with Applicant's amendment. Claims 20-23 and 30-33 have been rejoined because those claims fall within the scope of the elected invention. Therefore, the restriction requirement between the compounds and methods of uses has been withdrawn and all pending claims have been allowed.

### *Reasons for allowance*

The following is an Examiner's statement of reasons for allowance:

Berger *et al* (US 5,688,830) teach a compound of the Formula I, which is useful as sodium channel blockers, and are particularly useful for the alleviation of neuropathic pain. The instant compound differs from the prior art by having a compound of the formula (I), which is further substituted by different variables such as R<sub>7</sub>, R<sub>8</sub>, and A<sub>20</sub> etc that are attached directly or indirectly to the core heterocyclic ring and are useful for treating a disease or condition associated with sodium channel activity. The prior art compound neither teaches nor renders obvious the instant claimed invention and there is no suggestion or motivation to modify the compound of other prior art to obtain the instant compounds. Therefore, the instant claims 1-6, 8-11, 20-23 and 28-33 are allowable over the prior art of record.
